

Default Field Definitions

All user fields, their labels, availability and constraints may change depending upon your "User Account Data" configuration. Please note that the field names in the User Demographic dataset are also listed in the following datasets: Certificates, Course Transcripts, and Purchases.

Catalog and Course Information Dataset

Default Label	Description	Type	Notes
Catalog Name	Catalog name	Text	
Catalog Cost	Catalog cost	Numb	
Course Name	Course name	Text	
Course Code	Course code	Text	
Course Cost	Course cost	Numb	
Course Rating	Average course rating of 1 – 5	Numb	
Votes Cast	Number of users who rated the	Numb	
Course Credits	Course credits	Numb	
Course Published	Whether or not the course is published (displayed in the course catalog)	Text	"Equals" comparison operator displays True or False
Course Closed	Whether or not the course is closed for self-enrollment	Text	"Equals" comparison operator displays True or False
Course Locked	Whether or not the course is	Text	"Equals" comparison operator displays True or False
Lesson Name	Lesson name	Text	
Lesson Type	Lesson type	Text	
Content	The SCORM package and SCORM resource	Text	
Session	Session date/time	Date	
Session Seats	Session seats	Numb	
Session Waiting	Session waiting seats	Numb	
Session	Session seats available	Numb	
Session	Session instructor's full name	Text	Last Name, First Name, Middle
Session Instructor	Session Instructor's email	Text	
Session City	Session city	Text	
Session	Session province	Text	
Session Student	Session student's full name	Text	Last Name, First Name, Middle
Session Student	Session student's email	Text	
Session Student	Session student's username	Text	

Course Transcripts Dataset

Default Label	Description	Type	Notes
All fields contained within the User Demographics dataset are also included in this dataset			
Code	Course code	Text	
Course	Course name	Text	
Credits	Course credits	Number	
Enroll Date	Date user was enrolled in the course	Date	
Course Status	Course status	Predefined Text	Valid search values are "completed," "enrolled," "expired," "future," "overdue"
Due Date	Date course needs to be completed by	Date	
Date Completed	Date the course was completed	Date	
Lesson	Lesson name	Text	
Session Date/Time	Session Date/Time	Date	
Content Resource	The SCORM package and SCORM resource identifier of the lesson	Text	
Lesson Completion	Lesson Completion is determined by the	Predefined Text	Valid search values are "completed," "incomplete," "unknown," or "not attempted"
Progress Measure	Percentage of the lesson that has been	Text	
Lesson Success	Lesson Success is determined by the	Predefined Text	Valid search values are "passed," "failed," "unknown," or "not attempted"
Score	Lesson score	Number	
Lesson Timestamp	Lesson timestamp	Date	
Lesson Time	Total time user spent interacting in the	Number	
Attempts	Number of times the user has attempted	Number	
Interaction	The identifier of a user's recorded	Text	
Interaction Description	The description of a user's recorded	Text	
Type	The type of interaction	Text	
Interaction Timestamp	Date/time of the recorded interaction	Date	
Interaction Time	The time spent on the interaction	Number	
Learner Response	The learner's interaction response	Text	
Correct Responses	The correct response to the interaction	Text	
Result	The result of the interaction	Predefined Text	Valid search values are "correct" and "incorrect"
Objective	The identifier of the objective for an	Text	
Objective Description	The description of the objective for an	Text	
Objective Score	The required score for an objective to be	Number	
Objective Completion Status	Indicates whether or not the interaction's objective has been completed	Predefined Text	Valid Search values are "completed," "incomplete," or "unknown"
Objective Success Status	Indicates whether or not the interaction's objective has been passed	Predefined Text	Valid Search values are "passed," "failed," or "unknown"

User Demographics Dataset

Default Label	Description	Type	Notes
Full Name	User's full name	Text	Last Name, First Name, Middle Name
Last Name	User's last name	Text	Last Name
First Name	User's first name	Text	First Name
Email	User's email address	Text	
Username	User's username	Text	
Job Title	User's job title	Text	
Job Class	User's Job class	Text	
Company	User's company name	Text	
Street Address	User's street address	Text	
City	User's city	Text	
State/Province	User's state/province	Text	
Postal Code	User's postal code	Text	
Country	User's country	Text	2 character country code* Appendix B
Primary Phone	User's primary phone	Text	
Work Phone	User's work phone	Text	
Home Phone	User's home phone	Text	
Fax	User's fax	Text	
Mobile Phone	User's mobile phone	Text	
Pager	User's pager	Text	
Other Phone	User's other phone	Text	
Division	User's division	Text	
Department	User's department	Text	
Supervisor	Supervisor's full name	Text	Last Name, First Name, Middle Name (supervisor's username)
Region	User's region	Text	
Employee ID	User's employee ID	Text	
Hire Date	Date user was hired	Date	
Terminal Date	Date user was terminated	Date	
Social Security Number	User's social security number	Text	
Gender	User's gender	Text	Valid search values: f and m
Race	User's race	Text	Valid search values: African American (black), Caucasian (white), East Indian, Hispanic/Latino, Middle Eastern, Native American, Pacific Islander, Inter-racial
Date of Birth	User's date of birth	Date	
Status	Status of user's account	Text	
Created	Date the user's account was created	Date	
Expires	Expiration date of the user's account	Date	
Last Login	Date and time of user's last login	Date	
IP address	User's IP address	Text	
Language	User's default language	Text	"Equals" comparison operator displays list of all possible languages
Local Time Zone	User's local time zone	Predefined Text	"Equals" comparison operator displays list of all possible time zones
Group	User's group membership(s)	Predefined Text	"Equals" comparison operator displays list of all possible groups
Identifier	User's identifier	Text
